LE ACQUE DI CIELO

Alga, Anemone, Corallo, Ninfea, Oltremare, Smeraldo.

Raccontare: così come con le parole, anche con i colori. Ceramica Cielo presenta “Le Acque di Cielo”, una collezione di tonalità intense, ispirate ancora una volta alla natura, ma caratterizzate da riflessi lucidi. Questa nuova palette glossy si affianca alle cromie matt esistenti de “Le Terre di Cielo”, permettendo di creare nuove suggestioni e dunque nuovi racconti.

Le possibilità di interpretazione sono notevoli, da un concetto più tradizionale e sobrio fino alla creazione di abbinamenti più audaci, che possano seguire tendenze, mode, non solo in ambito architettonico. Si possono quindi abbinare colori lucidi e colori opachi per lo stesso progetto. L’ambiente bagno così si svincola finalmente dalla sola idea di funzionalità ma si pone al pari degli altri ambienti della casa.

Alga, Anemone, Corallo, Ninfea, Oltremare, Smeraldo.

To tell: As with words, also with colours. Ceramica Cielo presents “Le Acque di Cielo”; a collection of intense tones, once again inspired by nature, but characterised by shiny reflections. This new glossy palette joins the existing matt colours of “Le Terre di Cielo” enabling you to create new sensations and therefore new stories.

The possibilities of interpretation are remarkable, from a more traditional and sober concept to the creation of more daring combinations, which can follow trends and fashions, not only in the architectural field. It is now possible for you to combine glossy and matte colours in the same project. In this way bathroom finally frees itself from the sole idea of functionality and stands on a par with the other rooms in the house.

Cielo condivide le sue radici e la sua storia con l'arte ceramica italiana, nascendo in un territorio artisticamente fertile dove la qualità ha avuto qualcosa di più, qualcosa di diverso rispetto al resto del mondo. La duttilità, l'immediatezza e la bravura di maestri ceramisti nel corso dei secoli ha conquistato artisti, affinando abilità, conoscenze e competenze che Cielo ha portato nel suo mondo, quello dell'industria sanitaria. Qui dove la produzione della ceramica risale al X secolo A.C, Cielo è riuscita, con tenacia e determinazione, a trasmettere "quell'anima calda" di cui la ceramica artistica italiana è portavoce, attraverso l'utilizzo di materie prime dalle alte caratteristiche, macchinari di ultima generazione e una continua sperimentazione.

Forme archetipe ed essenziali e colori ispirati alla natura sono i tratti distintivi di Ceramica Cielo, un mondo in cui l'alchimia tra la trasformazione dell'argilla e un design contemporaneo e funzionale, crea qualcosa di unico.

IL LABORATORIO DELLA CERAMICA THE CERAMICS LABORATORY

Cielo shares its roots and history with Italian ceramic art, being born in an artistically fertile territory where quality has had something more, something different than the rest of the world. The ductility, immediacy and skill of master potters over the centuries has conquered artists, refining skills, knowledge and expertise that Cielo has brought to this world, that of the healthcare industry. Here, where the production of ceramics dates back to the 10th century BC, Cielo has

succeeded, with tenacity and determination, to convey "that warm soul" of which Italian artistic ceramics is the spokesperson, through the use of high-quality raw materials, latest generation machinery and continuous experimentation.

Archetypal and essential forms and colours inspired by nature are the hallmarks of Ceramica Cielo, a world in which the alchemy between the transformation of clay and contemporary and functional design creates something unique.

INTRODUZIONE
INTRODUCTION

**Nuovi canoni e nuove visioni nascono attraverso *“Le Acque di Cielo”*.
Gli intensi colori che traggono ispirazione dalla natura - Alga, Anemone,
Ninfea, Corallo, Oltremare e Smeraldo - donano nuove sfumature interpretative
alla collezione de “I Catini”. Le forme pure ed essenziali delle strutture metalliche
e della ceramica sono rafforzate da questa nuova finitura lucida, capace
di dialogare con le decise geometrie dei piani, disponibili in pietra Azul Noche
o nelle nuove tinte, ma anche con le venature dei contenitori in essenza
che possono essere selezionati in alternativa.**

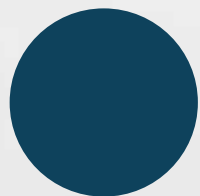

**Gli stessi riflessi de “Le Acque” possono essere ritrovati sulle strutture degli
specchi contenitori - Round Box, Oval Box, Tall Box e Simple Box - sui sanitari
- Era, Enjoy e Smile - ed, infine, sugli accessori.**

**L’ambiente bagno trova dunque, in tutto il suo insieme, una nuova narrazione
e la chiave di lettura ne è il colore.**

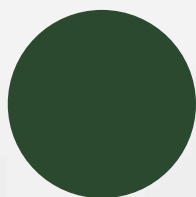

New standards and new visions are born through *“Le Acque di Cielo”*. The intense colours that draw inspiration from nature – Alga, Anemone, Ninfea, Corallo, Oltremare and Smeraldo – give new interpretative nuances to the collection of “I Catini”. The pure essential forms of the metal structures and ceramics are reinforced by this new glossy finish, capable of communicating with the decisive geometries of the countertops, available in Azul Noche stone or in the new colours, but also with the veins of the wooden containers that can be selected as an alternative.

The same reflections of “Le Acque” can be found on the structures of the mirror cabinets – Round Box, Oval Box, Tall Box and Simple Box – on the sanitary ware – Era, Enjoy and Smile – and, finally on the accessories.

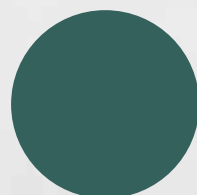

The bathroom environment as a whole therefore finds a new narrative and the key to its interpretation is its colour.

ANEMONE

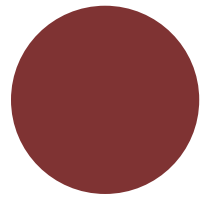

Il Catino Tondo si presenta con lavabo Ninfea e struttura Corallo, in una suggestione bicromatica interrotta dal ripiano in pietra Azul Noche abbinato. Il resto dell'ambiente, caratterizzato dallo specchio Round Box e dai sanitari Enjoy, viene proposto sempre nella tonalità calda della palette, Corallo: più intenso e deciso. Come accessorio troviamo un portasapone con profilo nero e un ripiano in Ninfea.

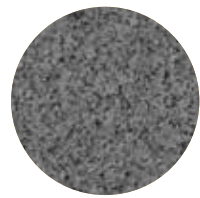

The Catino Tondo comes with a Ninfea washbasin and Corallo structure, in a two-tone suggestion interrupted by the matching Azul Noche stone shelf. The rest of the environment, characterised by the Round Box mirror and the Enjoy sanitary ware, is proposed in the warm shade of the palette, Corallo: more intense and decisive. As an accessory we find a soap dish with black profile and a shelf in Ninfea.

Il Catino Ovale propone il lavabo color Anemone in abbinamento alla struttura Nero Matt insieme con il cassetto in Rovere Sbiancato. I sanitari Era sono a loro volta caratterizzati dalla tonalità Anemone. Lo specchio contenitore Oval Box e gli accessori - Mensola Porta Sapone e Porta Salviette - trovano invece continuità con la finitura Nero Matt della struttura metallica del Catino.

The Catino Ovale proposes the Anemone coloured washbasin in combination with the Matt Black structure together with the Bleached Oak drawer. Era sanitary ware are in turn characterised by the Anemone tone. The Oval Box cabinet mirror and the accessories - Soap holder shelf and towel rail - find continuity with the Black Matt finish of the metal structure of Catino.

Il Catino Doppio è proposto con il doppio lavello in Oltremare, la struttura Nero Matt e un ripiano in Rovere Sbiancato. La “profondità” di Oltremare si ritrova anche sui sanitari Era, pensati a contrasto con il bianco della vasca Dafne. Il grande specchio Round con gli accessori in Nero Matt completano l’ambiente bagno.

The Catino Doppio basin is proposed with the double sink in Oltremare, the Matt Black structure and a shelf in Bleached Oak. The “depth” of Oltremare is also found on the Era sanitary ware, designed in contrast with the white of the Dafne bathtub. The large Round mirror with Matt Black accessories complete the bathroom environment.
